JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

the other hand, tend to equalize the temperature even to a depth of forty fathoms.

That the temperature of the water of the main channel of the St. Lawrence is always considerably lower than that of the waters nearer shore, or of the harbors or the affluent streams.

That no general rule can be laid down regarding the changes of temperature with the increase of depth, each case being influenced by its own special circumstances.

That in high summer temperatures the surface of comparatively still, shallow, sheltered water, unaffected by main channel cur-

rents, absorbs and retains heat to a much greater degree than the immediately overlying air; the difference depending on the surroundings, but being in one instance as high as 11°.

A. T. DRUMMOND.

Montreal, Can., March 12.

#### INDUSTRIAL NOTES.

##### A New Drawing-Table.

THE principal features of the improved drawing-table shown in the illustration are that the drawing-board may be raised or lowered with one motion of the hand, and that the board can be tilted to any desirable angle. The vertical sliding pieces

this tube, and, in clamping, it tends to straighten the tube, thereby forcing the ends of the tube against the inner faces of the sliding pieces, and holding these pieces firmly at any height. The advantage of this clamping device is that it does not tend to draw the stands together. The arrangement for tilting is easily seen, and the device for clamping is the same as the one just described.

The stand is very light, and at the same time extremely rigid and firm, and, with the clamping-screws tightened, there is no liability to slip, even if the draughtsman rests his entire weight on the edge of the board. These drawing-tables are manufactured by Messrs. Jones & Mack of Cincinnati, O.

## SCOTT'S EMULSION

**Of Pure Cod Liver Oil and HYPOPHOSPHITES of Lime and Soda**

is endorsed and prescribed by leading physicians because both the *Cod Liver Oil* and *Hypophosphites* are the recognized agents in the cure of *Consumption*. It is as palatable as milk.

**Scott's Emulsion** is a perfect Emulsion. It is a wonderful *Flesh Producer*. It is the Best Remedy for **CONSUMPTION, Scrofula, Bronchitis, Wasting Diseases, Chronic Coughs and Colds.** Ask for Scott's Emulsion and take no other.

### A New Method of Treating Disease.

#### HOSPITAL REMEDIES.

What are they? There is a new departure in the treatment of disease. It consists in the collection of the specifics used by noted specialists of Europe and America, and bringing them within the reach of all. For instance, the treatment pursued by special physicians who treat indigestion, stomach and liver troubles only, was obtained and prepared. The treatment of other physicians celebrated for curing catarrh was procured, and so on till these incomparable cures now include disease of the lungs, kidneys, female weakness, rheumatism and nervous debility.

This new method of "one remedy for one disease" must appeal to the common sense of all sufferers, many of whom have experienced the ill effects, and thoroughly realize the absurdity of the claims of Patent Medicines which are guaranteed to cure every ill out of a single bottle, and the use of which, as statistics prove, has ruined more stomachs than alcohol. A circular describing these new remedies is sent free on receipt of stamp to pay postage by Hospital Remedy Company, Toronto, Canada, sole proprietors.

### DO YOU INTEND TO BUILD?

We offer an Atlas of **Sensible Low Cost Houses**, a portfolio 11x14 inches, containing **handsome illustrations**, floor plans, and full descriptions of this popular design, and fifty-four others, ranging in cost from \$800 to \$7,200. This specimen design is for a cottage with seven rooms, and costing \$1,100. It combines beauty and comfort, has two large porches, and is a popular and practical working design, having been built several times for its estimated cost.

No matter what style of a house you may intend to build, it will pay you to have this book.

We will send this Atlas, postpaid, on receipt of price, \$1.—N. D. C. Hodges, 47 Lafayette Place, New York.

**AGENTS WANTED** by an old reliable firm; large profits, quick sales. **SAMPLE FREE.** A rare opportunity. Geo. A. Scott, 842 Broadway, N. Y.
